About American Pacific University

American Pacific University is positioned to provide both undergraduate and graduate programs by distance education. For professionals already in the healing arts or aspiring practitioners to be, the Master's Degree in Transpersonal Psychology and the Bachelor's Degree in Transpersonal Studies* provide a solid conceptual foundation, with a unique emphasis on integrative psychology. Transpersonal Psychology is a branch of psychology that is concerned with the study of those states and processes in which people experience a deeper or wider sense of who they are, or sense of greater connectedness with others, nature, or the "spiritual dimension." Transpersonal Psychology is the study of the "whole" human being, mind, body, and spirit, combining insight from both Eastern and Western concepts and practices.

Operations are headquartered in the state of Hawaii and students are accepted from all over the world.

American Pacific University is also a nationally recognized leader in hypnotherapy education. The University offers post-secondary degrees in Hypnotherapy and Esoteric Studies**. Students enrolled are allowed to study through seminars, tutorials, directed independent study, and student to student interaction.

Why You Should Take a Training with TEP

While the fame of a trainer or organization doesn't ensure quality, it can be an important indicator of the value provided. After all, it is a following of people that creates popularity. Year after year, we consistently receive the highest ratings on our evaluations. We have achieved this by presenting excellent trainings and producing effective trainers. After all, that's what we're all about.

Weekend Seminars as well as Major Trainings are offered.

WEEKEND SEMINARS

Accelerated Certification Course in Clinical Hypnotherapy

You are invited to learn the latest hypnosis techniques and receive your certificate in Clinical Hypnotherapy by attending the accelerated weekend course (option to become certified – please inquire about the details).

Hypnosis is a scientifically verified and effective technique that can promote accelerated human change. The APU Accelerated Weekend programs will teach you how to stimulate desired changes in behavior and encourage mental and physical well-being. During the first weekend, you will already learn how to guide yourself and others to lose weight, quit smoking, and to be free of physical pain. These programs are especially suited for health care professionals, practicing therapists, and individuals seeking to make a positive change in their lives.

"As a teacher, this is the best classroom experience that I have ever experienced. The training design is excellent and all teachers would profit greatly from this training!"

WEEKEND SEMINARS

Empowering Your Life™

In this weekend seminar, you will learn how to apply a combination of the most effective personal empowerment technologies grounded in the field of NLP, Hypnosis, Time Empowerment™ Techniques, Quantum Physics, and Huna (ancient Hawaiian Shamanism).

Isn't it time to stop living in the past, start enjoying the new, and look forward to your future? Can you remember a time when you used to dream of how you'd like to be someday? Have you, like many people, given up on your dreams, got trapped by limitations, become unsure of how to reach out and start living the life you want? Do you feel like you're a spectator rather than a player in your own life? If yes, then the Empowering Your Life™ seminar will give you the opportunity to get yourself back on track and start living again, whether it's creating your perfect relationship, achieving and maintaining your ideal weight or level of fitness, increasing your income, or accelerating your career and/or business.

"Loved it! Fantastic! Totally empowering. Matt James is totally engaging and artful in delivery of material and demonstrations."

Grace Gillian Carroll, New York

Introduction to Hawaiian Huna

Huna is a Hawaiian word that means "secret." Huna is about empowerment, about increasing your spirituality, energy, and metaphysical healing powers. It is the original art and science of healing and spiritual development of the Hawaiian people.

In this weekend seminar, learning Huna is more about experiencing the knowledge, rather than learning the techniques. While you'll do both, it is important for you to realize that this is a very different seminar than you have ever attended.

"Whatever you think you are, you're more than that."

MAJOR TRAININGS

Huna

- Who am I?
- What is my spiritual nature?
- What is the nature of the world we live in?
- How can I connect with the forces of nature and live in harmony with my environment?
- Why do things happen the way they do?

If you have ever asked yourself even one of these questions, then it may be time for you to consider the study of Huna.

Matthew B. James will be your lead trainer and guide in this Huna intensive training that is held in Kona, Hawaii. You will interact with living legends, connect with the land, feel the mana or life force, learn to chant, to do ha-breathing and emotional clearing, attend a volcano trip, travel to the city of refuge, learn the hula, and end with a private luau.

Plan on "living" this material, not just "learning" it. Expand your consciousness and experience a greater sense of spirituality.

"Excellent! This training is a must for anyone serious about moving ahead in the use of NLP and Hypnosis. Matt is a dynamic presenter. There were no dull moments."

Diane Hill, Colorado

Time Empowerment™ Techniques Trainer's Training

Time Empowerment™ Techniques Trainer's Training

In this course you will learn the advanced skills of Time Empowerment™ Techniques. Upon successful completion of this training, you will have the necessary certification to teach and certify students as Time Empowerment™ Techniques Practitioners. Your Time Empowerment™ Techniques Trainer's Certification allows you to be eligible for Institute status with the Time Empowerment™ Techniques Association.

As an application of NLP, Time Empowerment™ is a collection of techniques that allow you to gain emotional control over your life. Inappropriate emotional reactions, such as bursts of anger, periods of apathy, depression, sadness, anxiety, and chronic fear, are responsible for preventing people from achieving the quality of life they desire. Limiting decisions, such as "I'm not good enough," "I'll never be rich," or "I don't deserve a great marriage," create false limitations and hamper your ability to create reachable and attainable goals and outcomes. Time Empowerment™ techniques enable you to eliminate many types of issues in your past, thus allowing you to move forward toward your goals and desires. Please note: You must meet prerequisites before enrolling in this training.
